

RUSLAN HRYSHCHENKO

Full Stack Developer — JavaScript / React / Node.js

Geseke, NRW, Germany | +49 151 40176396 | hryshchenkoruslan1@gmail.com | linkedin.com/in/ruslan-hryshchenko | github.com/r671h

PROFILE

Full Stack Developer with 2+ years shipping production web apps end to end — React/Next.js front ends, Node.js/Express APIs, MongoDB/PostgreSQL data layers, and AI features on the Claude and Gemini APIs. Grew a finance platform to 50+ beta users while cutting manual data-review time by 46%, held a 5-star freelance rating while cutting client page load times by up to 40%, and delivered a real-time messaging module for a 15-person Agile team. Comfortable owning a feature from data model to Docker Compose / CI/CD deployment.

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, Socket.io / WebSockets
Data: MongoDB, PostgreSQL, Prisma ORM, Supabase
AI & Auth: Claude API, Gemini API, JWT, bcrypt, RBAC
Tooling & DevOps: Git, Docker / Docker Compose, CI/CD, Vercel, Zustand
Languages: English (C1), German (C1), Russian (Native), Ukrainian (Native)

EXPERIENCE

Mentor — DT Akademie (Self-Employed / Gewerbe) Sep 2026 – Present

Remote · Germany · Self-employed, part-time · Concurrent with freelance development work

- Lead a 20-person learner cohort, organizing guest-speaker sessions and structuring lecture materials that lifted course completion rates by 30%.
- Operate the mentorship as an independent, self-registered business (Gewerbe), managing end-to-end scheduling and content delivery for 20+ learners per cohort alongside development work.

Frontend Developer — Fiverr (Freelance) Oct 2024 – Aug 2026

Remote · Germany · Part-time / concurrent with contract and work-study roles below

- Maintained a 5-star client rating across 30+ engagements by delivering high-performance React landing pages end to end, cutting average page load times by 40%.
- Refactored outdated codebases into modern React components for global clients, lifting Lighthouse scores by 35%.

Full-Stack Developer — QuantCode (Contract, Part-time) Aug 2025 – Jun 2026

Remote · Germany · Concurrent with Fiverr freelance work

- Grew a personal finance platform to 50+ active beta users by designing and shipping JWT/RBAC authentication, a real-time analytics dashboard, and an AI financial-analyst chat agent that cut manual data review time by 46%.
- Streamlined deployment by containerizing the full stack with Docker Compose and building a CI/CD pipeline, cutting release time from hours to under 10 minutes.

Junior Full-Stack Developer — Delta Tech (Work-Study) Feb 2025 – Jun 2025

Remote · Warsaw · Agile/Scrum, 15-person team

- Enabled real-time collaboration for a 15-person Agile team by building a WebSocket messaging module integrated into a server-side-rendered e-commerce platform (Next.js, Supabase), cutting status-update turnaround from minutes to seconds.

PROJECTS

FinTrack — Personal Finance Tracker (github.com/r671h/FinTracker)

- Built a multi-account finance tracker with CSV import and an AI finance-analyst chat feature that cut manual expense categorization time by 50%. Stack: Next.js, Express.js, MongoDB, Claude API.

MyMessenger — Real-time Chat App (github.com/r671h/MyMessenger)

- Built a real-time messaging platform with 1:1/group chat, media uploads, and presence indicators, sustaining sub-200ms message delivery under concurrent load. Stack: Next.js, Socket.io, PostgreSQL, Prisma.

AI Weather Forecast Assistant (github.com/r671h/WeatherAiForecastAssistant)

- Built a weather app that turns live forecasts into plain-language, activity-based recommendations, reducing time-to-decision for outdoor planning. Stack: Next.js, TypeScript, Express.js, Claude API, Gemini API.

EDUCATION

Bachelor of Technology, Computer Science — Zaporizhzhya National Technical University | Aug 2026 – Jun 2029 (In Progress)

Junior Bachelor, Computer Engineering — College of Computer Technologies, Zaporizhzhia National University | Sep 2022 – Jul 2026 (Completed)

German B2 for Professional Purposes — Kolping Bildungswerk, Germany | Jan 2026 – Aug 2026 (Completed)
